

IDEAL CUSTOMER PROFILE: Data-Backed Description for Marketing Targeting

Prepared For: D2C Fashion Brand Marketing Team
Use Case: Customer acquisition targeting, lookalike modeling, messaging strategy

1. Summary Profile

The brand's **most valuable customer** is defined by: Value_Tier = 'High' AND Retention_Segment = 'Loyal' AND Promo_Segment = 'Organic'.

Attribute	Value
Age	~44 years
Gender	Female / Male (Split)
Top Locations	Montana, California, New York
Preferred Categories	Outerwear, Clothing, Footwear
Avg Order Value	\$78 - \$81
Purchase Frequency	37 - 40 lifetime purchases
Promo Usage	0% (never uses discounts)
Satisfaction Rating	4.0+ out of 5

2. Demographic Profile

Age Distribution

Finding: Customers aged 40-47 have the highest average spend (approx \$80), with peak performance clustered around 44-45 years old.

Geographic Hotspots

The top 3 locations by organic high-value revenue are: 1. **Montana** 2. **California** 3. **New York**

Action: Concentrate 60% of acquisition budget on these states.

3. Behavioral Profile

Purchase Patterns

- **Entry Categories:** Clothing
- **Retention Categories:** Footwear, Accessories
- **Seasonality:** High organic spend observed in specific periods (pending timestamp data)

Promo Sensitivity Score: 0/10

Ideal customers NEVER use promo codes. They respond to: - Product quality and uniqueness - Customer service excellence - Brand community and values - Early access to new collections

4. Psychographic Profile (Inferred)

Based on behavioral data, ideal customers likely: - Value quality over price - Are brand-loyal (not bargain hunters) - Shop intentionally, not impulsively - Respond to email and community, not flash sales - Have disposable income for premium products

5. Marketing Targeting Playbook

Lookalike Model Inputs

Use customers in the high value, high frequency, organic cohort as seed for lookalike modeling (total of 739 seed users).

Paid Social Targeting

- **Platforms:** Instagram, Pinterest (not TikTok)
- **Interests:** Premium fashion, sustainable brands, designer accessories
- **Exclude:** Bargain hunters, coupon sites, deal aggregators

Acquisition Channels to Prioritize

1. **Organic Social** (Instagram, Pinterest) - highest quality
2. **Referral Program** - ideal customers refer similar profiles
3. **Influencer Partnerships** (micro-influencers in premium fashion)
4. **Paid Search** (brand terms only, not discount terms)

6. Retention Strategy for Ideal Customers

Tactic	Description	Expected Impact
VIP Tier	Exclusive access, free shipping, personal shopper	+20% frequency
Early Access	48-hour early access to new collections	+15% AOV
Community Events	Virtual styling sessions, local meetups	+10% retention
Product Pre-orders	Reserve before public launch	+25% engagement

DO NOT send these customers discount codes. It will train them to expect discounts and erode CLV.
